SCRIPT**CAST** Pro Enterprise

Our SCRIPTCAST Enterprise is an advanced wireless display solution, supporting 10M/100M Ethernet and the latest 802.11n+802.11ac dual Wi-Fi network protocols.

The SCRIPTCAST Enterprise Box is specially designed for large meeting rooms and conference rooms, with more powerful Wi-Fi connection, Ethernet port and all EzCast Pro conference features.

Simply connect your Enterprise box and connect to the SCRIPTCAST Wi-Fi SSID. Then, download the EzCast Pro App on your device, connect to the Enterprise box and start presenting!

✓ Screen mirror wirelessly using any laptop/PC or mobile devices

✓ Equipped with more powerful Dual Wi-Fi – 2.4GHz and 5GHz

✓ Offering separate HDMI and VGA output connectors for dual display

✓ Ideal for large meeting rooms and groups of over 10 attendees

✓ Powered by the highly popular EZ Cast Pro software

✓ The Enterprise Box is also updated regularly with the latest OTA updates

More powerful wireless screen sharing with SCRIPTCAST Pro Enterprise…

1 Plug in your Enterprise Box
Plug in your SCRIPTCAST Pro Enterprise Box to your TV/Projector with HDMI
